

ohalo |  Data X-Ray

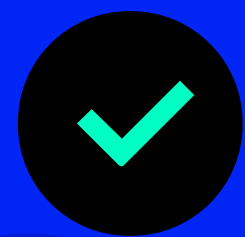

The AI that Wins Will Run on Governed
Unstructured Data.

Context Is Everything.

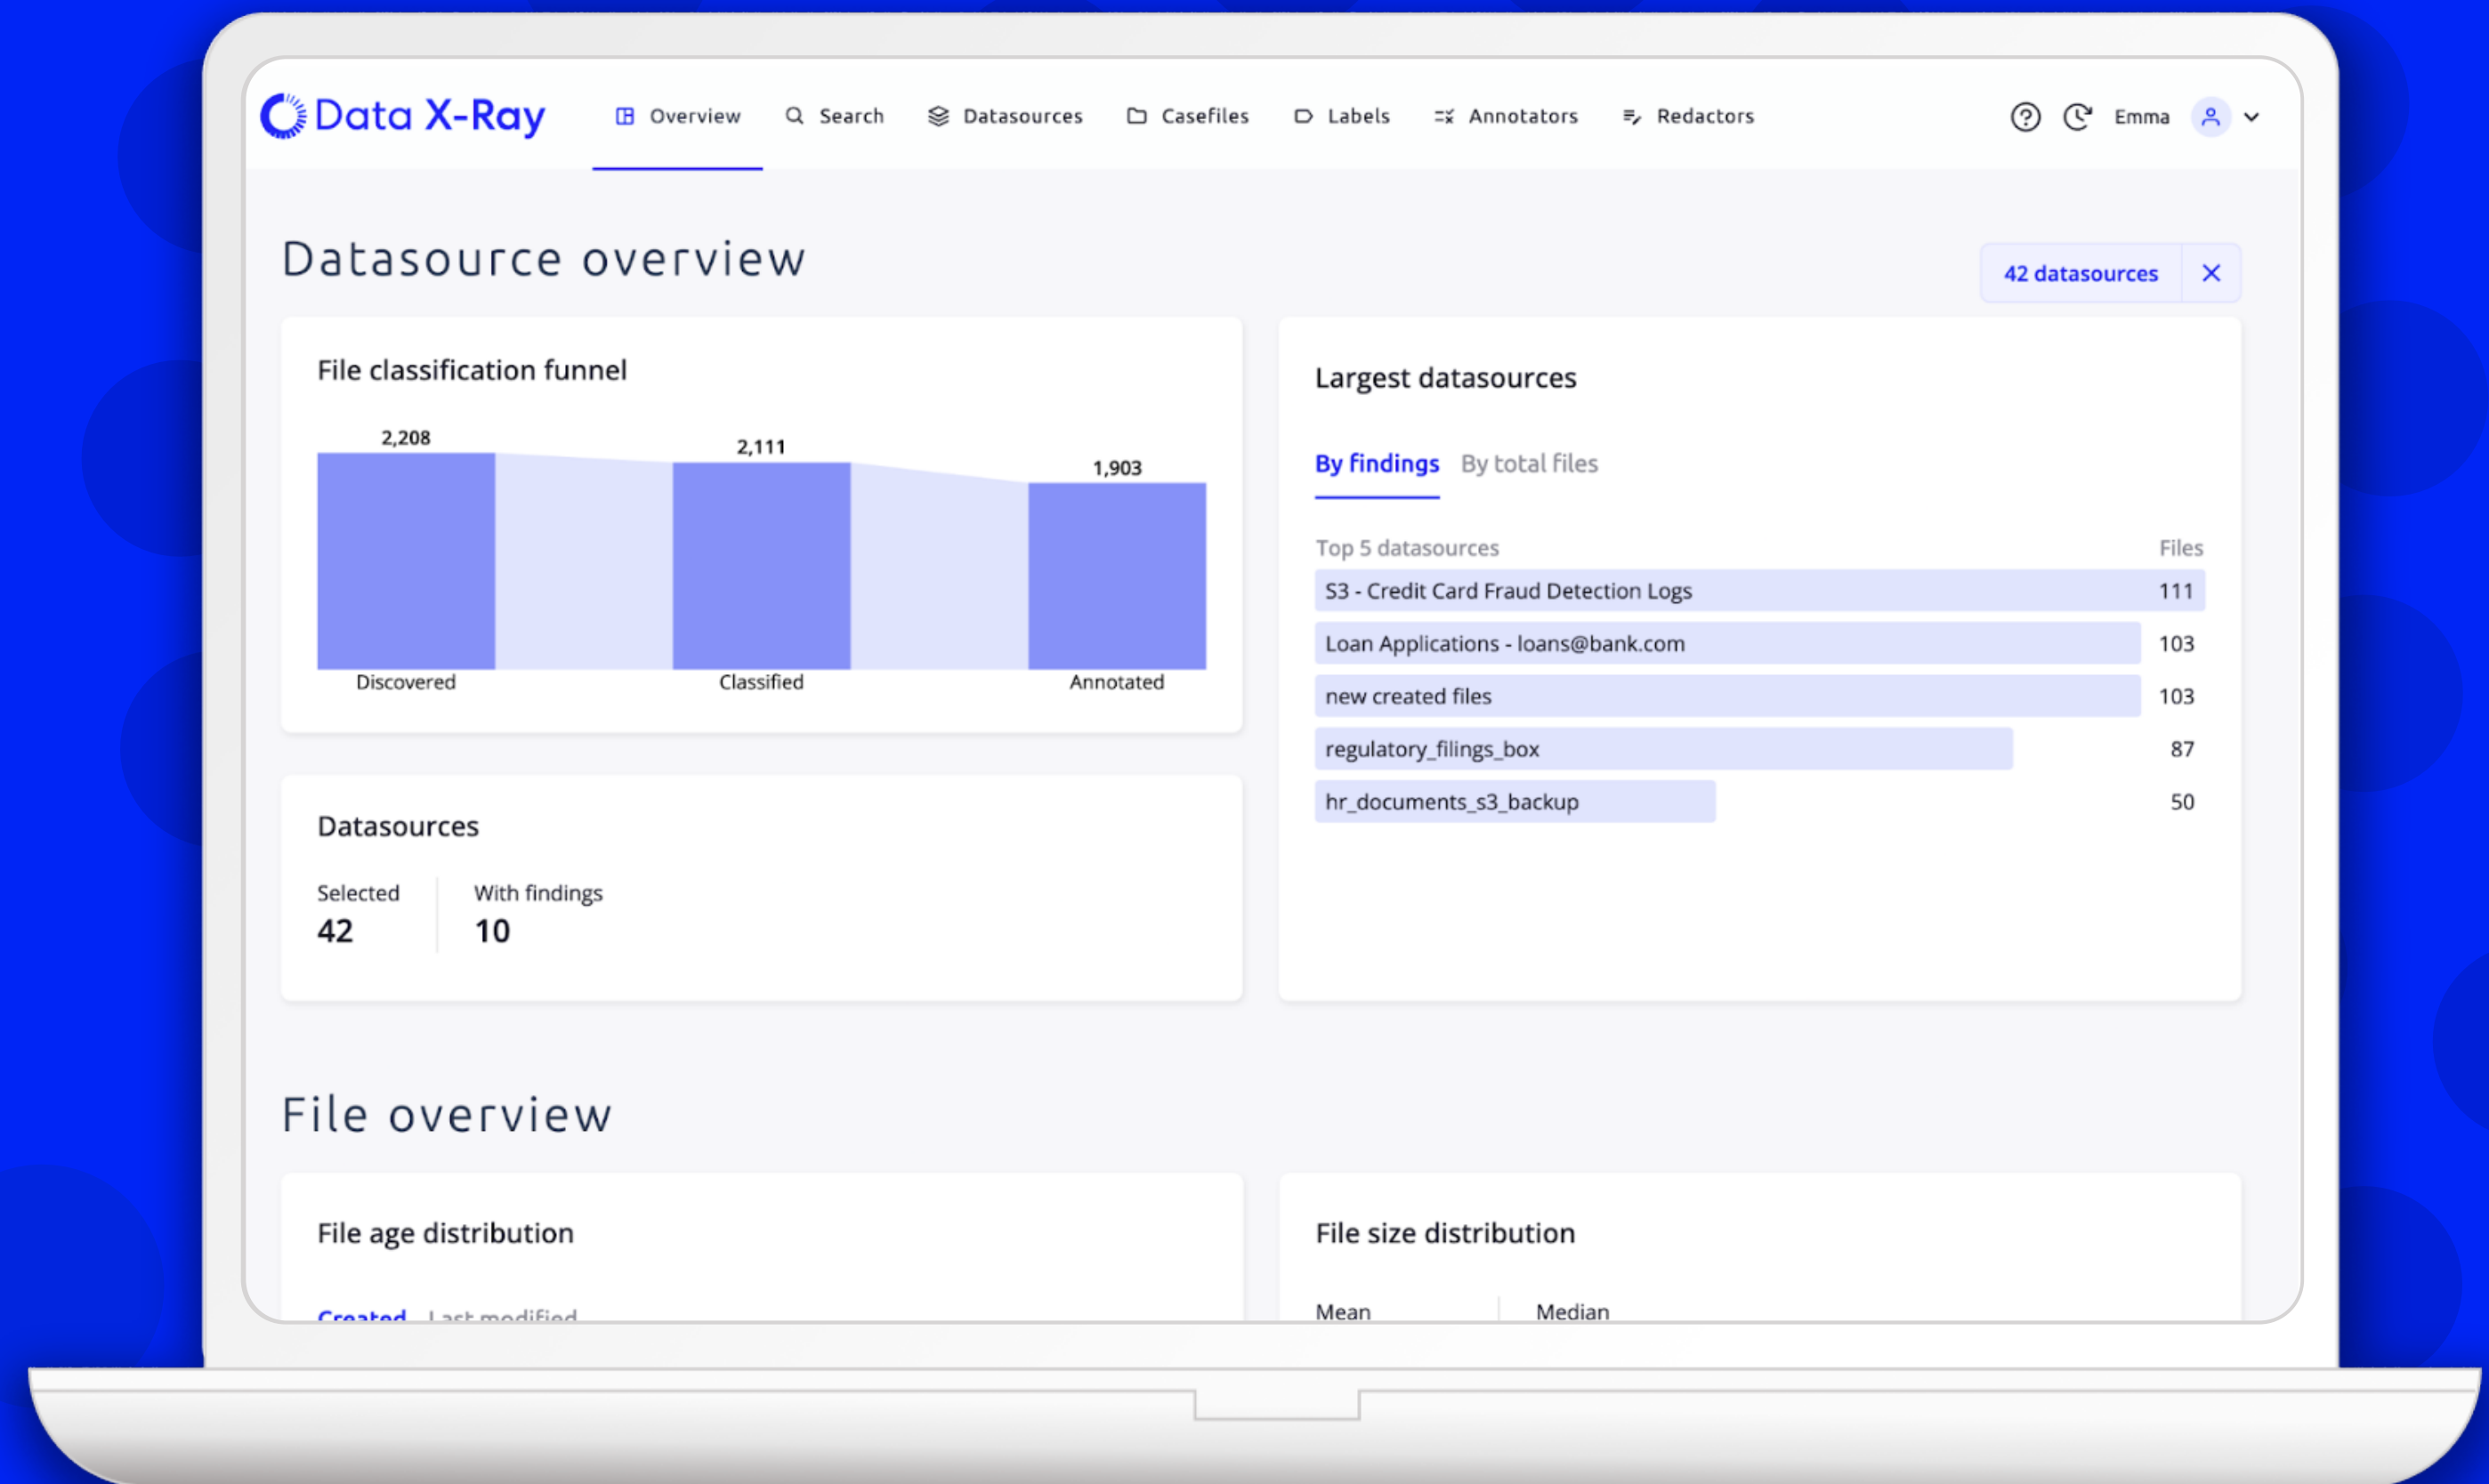

Ohalo governs unstructured data at
petabyte scale. So you ship AI that
holds up under regulatory pressure.

SOC2 Type II
Certified

ISO 27001
Certified

WHO IT'S FOR

Built for Data & AI Leaders in Financial Services

Data and AI leaders in Financial Services navigating the gap between AI ambition and regulatory reality.

- Chief Data Officers and CDAIOs
- Chief Information Officers
- Data Governance Directors
- AI/ML Initiative Leaders

BENEFITS

Deploy Anywhere
On-prem, cloud, or air-gapped. Self-hosted or SaaS. Your data, your control.

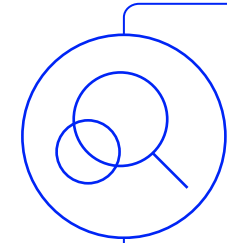

Classify with Context, Not Regex
Semantic precision at scale. GenAI-powered classification that understands content and context, not just keywords.

Trusted by Banks and Governments
SOC2 Type II and ISO 27001 certified. Built by a team with decades of experience in highly regulated environments.

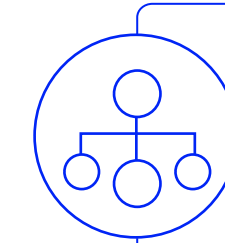

FEATURES

Simplify and outperform at every stage

See inside documents (content, context, access) at hundreds of thousands of words per second. So you can govern, protect, and activate the 80% you couldn't see before.

Discover Everywhere
1,000+ connectors. Petabyte scale. Your data never moves. We come to it.

Classify What Matters
GenAI-powered. Content + context. Surface sensitive data your current tools miss.

Enrich Metadata
Feed your catalog, your DLP, your RAG pipelines. Integrate with your existing stack.

Govern, Protect, Ship
Redact, remediate, enable AI. Make unstructured data audit-ready and AI-ready.

Works With Your Stack
1,000+ connectors. Native integrations with the platforms you already use.

GOVERNANCE PLATFORMS Microsoft Purview | Collibra | Atlan | Alation | DataHub

CLOUD & DATA PLATFORMS AWS | Azure | GCP | Databricks | Snowflake (upcoming)

Available on Microsoft AppSource — Enterprise-validated. Deploy directly through your Azure infrastructure.

SECURITY AND COMPLIANCE

Your data never moves. We come to it.

- ✓ Self-hosted or SaaS
- ✓ On-prem, cloud, or air-gapped
- ✓ SOC2 Type II Certified
- ✓ ISO 27001 Certified
- ✓ Know what sensitive data is flowing into AI models
- ✓ Audit-ready evidence for examiners and regulators

What Leaders Say

“Our problem is their problem. They never said 'we can't do this.'”

— Chief Technical Architect, Credit Services
